## PROSPECTUS.

---

This institution, under the care of the Fathers of the Society of Jesus, was incorporated May 25, 1863, by the State of Massachusetts, with power "to confer such degrees as are usually conferred by colleges in this Commonwealth, except medical degrees." Schools were opened September 5, 1864.

It is intended for day scholars only.

The act of incorporation provides that "no student of said College shall be refused admission to, or denied any of the privileges, honors or degrees of said College on account of the religious opinions he may entertain."

*Courses of Study*—To the original classical course was added, September, 1879, at the special instance of the Most Reverend Archbishop, a department in which the study of the ancient languages is superseded by exclusive application to English, the modern languages and the sciences. This course is intended to offer the advantages of a thorough English and business education to that large class of our youth, who, not intending to follow the professions, stand in no immediate need of classical training; but for whom it is of such vast importance that they be well grounded in their faith, and spend a few years, at least, under healthy religious influence. It is hoped that the friends of the College will call the attention of the large number of the community, who have sons intended for business, to the fact that a first-class business, literary, and Catholic education may be had in the English and Commercial course at Boston College.

**Matriculation.**—On admission, the pupil is examined, to determine what classes he should enter; and no student shall be promoted from any class till his progress justifies advancement. To prevent exclusive devotion to one pursuit, it has been found necessary, for culpable failure in one branch, to refuse promotion in all the rest. Nevertheless, on account of age, or peculiar circumstances, exemption from certain studies is sometimes conceded, in which case, the scholar is placed “out of course,” and is not reckoned as a candidate for honors or for graduation.

**Degrees.**—The degree of A. B. will be conferred on those students who have completed successfully the classical course and complied with the other regulations prescribed. To obtain this degree it is always necessary to have spent at least the last year of the course in this institution.

For the further degree of A. M., it will be required that the applicant shall have continued his studies in College for one year, or studied, or practiced a learned profession for two years.

**Sessions.**—The first session begins on the first Monday of September; the second, on the first Monday of February; but students are not precluded from entering at other times.

**Order of the Day.**—The hours of class are from 8.30 A. M. to 2 P. M., with short recesses at convenient intervals. Special arrangements with the Prefect will be necessary, in each individual case, to excuse later arrival.

The first half hour of each day is occupied in attendance at Mass. It is scarcely necessary to impress on Catholic parents the importance of this salutary practice. One hour a day is devoted to Arithmetic or Mathematics; two hours a week, to the study of modern languages; and the rest of the time, with the exception of that devoted to lectures on religious or other topics, is spent in the principal class of Latin, Greek or English.

**Marks.**—For each memory lesson, according to its excellence, the scholar receives a mark, grading from ten down; for translation, from twenty, and for Themes or Compositions, from thirty. As the labor of preparation of these various exercises, and their relative importance, are considered to be to each other as one, two and three.

At the end of each month, public proclamation is made of the average of all marks, in the separate departments of Classics, Mathematics and Modern Languages. The average of these monthly averages is what is termed the average of monthly results; at the middle examination, averages are given in like manner for the various branches, and a common examination average struck. To obtain the term average, that of the monthly results and of the examination are added, and their sum divided by two. In the second term or session the same method is followed, and the year's results are seen, in the average resulting from the combination of those of the two terms. According to this average of results for the year, commencement honors, grade and promotions are determined.

**Religious Discipline.**—The moral and religious part of education is considered to be incomparably the most important. Catholic students, if not excused for good reasons, are required to be present at Mass every day, to recite the daily catechetical lesson, to attend the weekly lecture on the doctrines of the Church, to make the annual retreat, to present themselves to their confessor every month, and, if they have not received the Sacrament of Penance, Confirmation, or Holy Eucharist, to prepare for their reception.

**Holidays.**—The following are the ordinary holidays:—

Every Saturday;

The days of a session remaining after the close of an examination;

All the holy days of obligation;

From the 23d of December to the 2d of January;

From Wednesday in Holy Week to Wednesday in Easter Week;

The Feasts of St. Patrick and St. Aloysius;

Fast Day, Decoration Day, Thanksgiving Day.

Attendance will be required, for a short time, on the second Saturday of the month; not for class recitations, but for certain religious or literary exercises. For absence on these days, only grave reasons will be received as excuse.

**Terms.**—The terms are thirty dollars per session of five months, payable in advance; besides the fee of ten dollars for the diploma, and five dollars, during the Philosophy year, for laboratory expenses,

there will be no further charges made by the College.

N. B. All bills must be settled before graduation.

**Rules.**—On arriving at the College, the students will repair immediately to the cloak-room where they will deposit their books, overcoats, etc. ; thence they will proceed directly to the gymnasium, where they will remain till time for Mass.

Those who are not required to be present at Mass, if they arrive during Mass, will remain in the gymnasium.

The places for recreation are the gymnasium and the court. All the rest of the premises are “out of bounds.”

Playing ball, snowballing, pitching, and all games that endanger windows are prohibited.

Whoever damages the College property must make compensation.

No boisterous conduct is allowed in the corridors or class-rooms at any time. Even in the gymnasium, and during recreation, the behavior should be decorous.

In fine, any conduct unbecoming the character of a gentleman will be regarded as a violation of the College rules.

Religious motives being habitually appealed to, little need has been experienced of frequent or severe punishment.

Flagrant offences, such as are detrimental to the reputation of the College, or are obstructive of the good of other pupils, are grounds for expulsion.

For faults of ordinary occurrence, such as tardy arrival, failure in recitations, or minor instances of misconduct, detention after school or the task of copying or committing to memory some lines of an author, is usually found to be sufficient penalty.

**To Parents.**—The efforts of teachers and prefects will be much facilitated, if the co-operation of parents can be secured.

Parents are, therefore, earnestly requested to insist upon daily study at home, for two or three hours, at least ; to notify the Prefect speedily in case of the detention or withdrawal of their sons, of necessary detention from, or tardy arrival at school ; of failure to receive the monthly report ; to attend to notifications, always sent by the Prefect the second day of an unexplained absence, or for lessons signally bad during a considerable length of time ; and not to pass over without inquiry averages falling below seventy-five. It is

respectfully asked that parents be prompt in answering notes sent them by college officers.

*Acknowledgments.*—Grateful acknowledgment is made of books, mineralogical specimens and other gifts, received during the year, from the Department of the Interior, Smithsonian Institute, Hon. P. A. Collins, Hon. Leopold Morse, D. H. Tully, Bureau of Education, Mrs. Higgins, Young Men's Catholic Association, John Buckley, Jr.
